The time period for reply, if any, is set in the attached communication.

DETAILED ACTION***Remarks***

The proposed claims do not place the application in better form for appeal by materially reducing or simplifying the issues for appeal. For example, proposed dependent claim 5 contradicts proposed independent claim 4. Proposed independent claim 4 specifies that the first and second mirrors have the same axis, the same axis forming the optical axis of the system. Proposed dependent claim 5 specifies that the first and second mirrors are offset from each other, where at least one of the first and second mirrors being off axis. See lines 6-11 and 19-22 on page 7 of the specification.

Telephone Numbers

Any inquiry concerning this communication or earlier communications from the examiner should be directed to the examiner whose telephone number is (571) 272-2414.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gregory J. Toatley, Jr. can be reached on (571) 272-2800 ext 77. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
